

I just wanted to comment on the report that I may be losing my KLove radio service due to LPFM. I am a loyal KLove listener. I look forward to waking up to KLove, it is the ONLY radio station I listen to, and I depend on it. KLove is not only beneficial to Casper WY, but to each location that it is currently and many many more places that hopefully will be able to receive it. It is awesome to know that I am listening to the same song as my mom and friends who live far away. KLove is a tool for praising God, and with KLove, I can praise along with so many other people at the same time. It is uplifting, and it gives the members of my community something positive to listen to with their families. Hearing my 4 year old daughter sing along with KLove is such a blessing. And as she grows older..especially into her teens, I pray KLove will be with her as she struggles against whatever the world may throw her way. Without KLove, I would honestly be devastated, and the message of Christ would be lost to many many hurting souls. I urge you not to do this. Please! Thank you.
